

ANDRÉA PETRITY

IT'S ABOUT TIME

Pianist Andréa Petrity's debut CD showcases her talents as a composer and arranger featuring her original compositions and fresh arrangements of familiar standards. She is happy and blessed to have recorded this CD with such lovely and talented Calgary musicians which include her regular trio members Stefano Valdo on bass and Robin Tufts on drums. Saxophonist Pat Belliveau joins them on a few tunes.

Many elements come into play when choosing repertoire for a recording. The tracks for ***It's About Time*** were carefully selected to give variety in terms of style and instrumentation.

For example paring down the instrumentation and taking a beautiful standard and playing it as it is allowing the gorgeous well written melody to just flow. Also transforming a seldom recorded folk tune using a completely different arrangement of chords, form and feel.

Variance of instrumentation throughout the tracks creates dimension and interest. This CD includes a solo piano tune, a few quartet and trio tunes and piano/bass duo.

"The music, inspiration and love comes from a higher place and I hope to always connect to that spirit. My wish is for you to enjoy".
